HARMAN PROFESSIONAL SOLUTIONS BUILD A BRIGHTER FUTURE

Trusted Brands. Connected Solutions.

In the dynamic and hyper-evolving realm of immersive experiences, HARMAN stands as a visionary architect, crafting the future through audio, video, control, and lighting. Our ten iconic brands, each a luminary in its own right, interconnect into an ecosystem of excellence, where every innovation contributes to the whole. By harnessing the power of cutting-edge technologies, we do not simply build solutions; we lay the cornerstones for a brighter future.

From open-architecture platforms and leading-edge control solutions, to legendary audio hardware and world-class lighting, HARMAN relentlessly pursues technological excellence, offering unparalleled solutions across a diverse range of industries. Every install benefits

from specialized engineering innovation, courtesy of our stable of industry-leading brands, each with its own legacy of pioneering spirit. That legacy began in the early days of commercial cinema when JBL was born and continued into the home-grown computing revolution that included BSS Audio and AMX and into the developing world of immersive audio led by FLUX::

Each brand in our portfolio sets the highest industry standard, and in turn, HARMAN shapes the way sound and light are experienced around the world. From live performance audio to critical enterprise infrastructures, HARMAN turns imagination into reality with unparalleled clarity, scale, and impact. We believe in a future redefined by visionaries and creatives, empowered by HARMAN Professional Solutions.

HARMAN has nearly **80 years** of experience and expertise, and **10 trusted brands**, leading the way in cutting-edge technologies that elevate every install.

DID YOU KNOW ▶

Every JBL loudspeaker model is put through an industry-leading 100-hour stress test of all components - that's nearly five days of pushing speakers to their absolute max and beyond! We're committed to ensuring our speakers perform flawlessly in real-world scenarios.

Our world-renowned solutions, trusted by professionals across industries, redefine what's possible in audio, video, lighting, and beyond. With an unwavering commitment to innovation, HARMAN empowers consultants, integrators, and designers to bring their most ambitious visions to life. Experience the clarity, impact, and unparalleled quality that HARMAN delivers.

HARMAN FACTS

- 1 Dr. Sidney Harman and Bernard Kardon founded the predecessor to HARMAN International, Harman Kardon, in 1953. Both Harman and Kardon were engineers for the Bogen Company, a manufacturer of public address systems.
- 2 In the 1970s, Dr. Sidney Harman sold his audio conglomerate to become Deputy Secretary of Commerce under U.S. President Jimmy Carter. He later bought back his company and relaunched it as HARMAN International.
- 3 In 1983, George Lucas and Lucasfilm selected JBL to develop the first commercial THX®-licensed cinema speaker system. Nine years later, JBL Synthesis released the first THX home theater system.
- 4 HARMAN is a 3-time GRAMMY Award Winner with Technical GRAMMY Awards for JBL Professional® (2005), AKG Acoustics® (2010) and Lexicon Pro® (2014).
- 5 In 2017, Samsung Electronics Co., Ltd. acquired HARMAN International as a wholly-owned subsidiary.

STEEPED IN HISTORY AND EXPERTISE

A LOOK THROUGH THE YEARS

1946
JBL FOUNDED
James B. Lansing founded James B. Lansing Sound in South Los Angeles, California.

1947
AKG FOUNDED
AKG was founded in Vienna, Austria in 1947 by two Viennese scientists: physicist Rudolf Görike and engineer Ernst Pless.

1947
CROWN FOUNDED
International Radio and Electronics Corporation (IREC) was established in 1947 by Clarence C. Moore, an Elkhart, Indiana minister. The company started out building rugged, open reel tape recorders for use by missionaries in distant parts of the world.

1953
HARMAN / KARDON FOUNDED
Harman Kardon was originally founded in Westbury, New York, in 1953, by business partners Dr. Sidney Harman and Bernard Kardon.

1962
FIRST STUDIO MONITORS
JBL introduces JBL 4320, the world's first studio monitors, which revolutionized the recording and broadcast industry.

1971
LEXICON FOUNDED
In 1971, Francis F. Lee founded the Lexicon company, based in Waltham, Massachusetts.

1971
DBX FOUNDED
dbx was founded by David E. Blackmer. The company's goal was to get closer to the realism of a live performance.

1971
SOUNDCRAFT FOUNDED
Soundcraft was founded by sound engineer Phil Dudderidge and electronics designer Graham Blyth.

1973
BLACKMER GAIN CELL
David Blackmer patents the dbx Blackmer Gain Cell, which became his greatest legacy and a true ahead-of-its-time innovation.

1973
FIRST MODULAR CROSSOVER SYSTEM
The BSS MCS Series became the first-ever modular crossover system, offering effective yet inaudible speaker protection.

1977
AMX FOUNDED
Scott D. Miller founded AMX in 1982. Its first product was the MX20 wireless controller for slide projectors.

1977
BSS FOUNDED
BSS was founded as Brooke Siren Systems by Chas Brooke and Stan Gould who combined their talents to produce frequency-dividing systems.

1979
MARTIN FOUNDED
The history of Martin began in 1978, when founder Peter Johansen realized how to make a smoke generator from a coffee maker. The company was founded in Aarhus, Denmark, in 1987 and began producing primarily fog machines and a small selection of disco lights.

1982
LEXICON RELEASED THE 480L DIGITAL EFFECTS SYSTEM
Paired with the Lexicon LARC, these components became must-have tools for world-class studios and were considered by many studio engineers to be the absolute pinnacle of digital reverbs.

1987
CROWN 10,000 WATT AMP
Crown's MA10000 provided 10,000 watts of power for 465 speakers at the Indianapolis 500 Motor Speedway.

1988
AKG IN THE ARCTIC
AKG Wireless Mics are used on the "Arctic Northeast" project and provide quality performance, despite low arctic temperatures.

1997
MAGIC TOUCH
AMX launched its revolutionary Modero touch panel family that quickly became the flagship of the AMX product portfolio.

2002
AKG WON A TECHNICAL GRAMMY

2005
JBL WON A TECHNICAL GRAMMY

2006
FLUX:: FOUNDED
Taking the world by storm in 2006, FLUX:: emerged as a game-changing immersive audio software innovator. Its groundbreaking technology empowered audio professionals to create truly immersive and captivating sonic experiences in the realm of spatial audio.

2010
LEXICON WON A TECHNICAL GRAMMY

2014
UNPARALLELED MIXING POWER
Soundcraft debuts its Vi2000 Mixing Console that brought unparalleled mixing power to the live touring, install, and corporate AV markets.

2016
SMART WEATHERPROOFING
Martin's MAC Aura XIP revolutionizes temporary outdoor lighting with the addition of XIP smart weatherproofing technology.

2022
INNOVATION CONTINUES...
HARMAN continues to innovate and push the boundaries of the professional audio, video, control, and lighting industries.

HARMAN has established itself as a **powerhouse** in the installation market by seamlessly integrating its portfolio of **iconic** brands, **cutting-edge** products, and **innovative** technologies.

ELEVATE YOUR SPACE WITH EFFORTLESS INTEGRATION

Redefining the Installation Landscape

HARMAN offers solutions for diverse verticals, from executive boardrooms to sophisticated stadiums by seamlessly integrating cutting-edge technologies and expertise. Our portfolio of brands, including JBL, AKG, Crown, Martin, AMX, and BSS, empower creators to bring their visions to life with precision and reliability.

Our open-architecture platform ensures compatibility and interoperability with third-party systems, while our expertise in networked solutions, such as Dante, simplifies complex installations. From the clarity of JBL audio to the brilliance of Martin lighting, to the precision of AMX control, HARMAN seamlessly integrates and elevates the human experience.

Enterprise AVoIP: Ensuring a Scalable Path Forward

When it comes to providing the world's highest-performing and most strategically innovative AV Over IP (AVoIP) solutions, our AMX networked AV portfolio is second to none. While our products literally established the AVoIP industry, they continue to evolve the landscape, delivering unparalleled scalability to easily deliver video to thousands of endpoints, across a range of applications, with the capability to scale to infinite proportions. Our real-world solutions allow customers to create, deploy, and monitor reliable, scalable, and secure AVoIP backbones, backed by legendary AMX products and global service and support.

Immersive Audio Experiences that Delight the Listener

As the demand for creating truly immersive audio experiences evolves, there is no other provider with more precision expertise, deep insight, and ready-to-deploy solutions than HARMAN. From recording and post-production to scoring and live performances, we have the most comprehensive suite of hardware and software solutions to deliver unparalleled soundscapes, scalable for the ideal listening experience. JBL loudspeakers, Crown amplifiers, and BSS, dbx, and Lexicon Pro signal processing products cover every possible hardware requirement. Our powerful object-based and perceptual immersive mixing solution from FLUX:: provides artists, sound designers, and audio engineers with the tools needed to design, create, and mix captivating and engaging real-time audio experiences.

Seamless Third-Party Integration for Best-in-Class Systems

HARMAN is committed to evolving technology and user experiences by developing third-party-friendly devices, applications, and platforms that ensure users can create systems using best-in-class components from a variety of manufacturers and technologies. Examples include AMX MUSE Automator. MUSE Automation solutions can be customized by dragging nodes from the palette into the workspace and wiring them together to create logical flows without the need to write a single line of code. MUSE Automator also supports the creation of custom nodes using JavaScript. Also built on a platform that embraces third-party integration, FLUX:: leads the industry in creating immersive audio and allows creators to work with the platforms they prefer, to create the best experiences possible.

HARMAN is the architect of immersive experiences, delivering scalable, end-to-end solutions that redefine the installation landscape.

SOFTWARE SOLUTIONS

SPAT REVOLUTION

APPLICATIONS SERVED:

Houses of Worship
Hospitality
Tour Sound
Stadiums
Immersive Audio

AN OUTSTANDING IMMERSIVE EXPERIENCE

FLUX:: SPAT Revolution is a powerful object-based and perceptual immersive mixing solution, providing artists, sound designers, and sound engineers the tools to design, create, and mix outstanding real-time immersive experiences. SPAT Revolution seamlessly integrates with a variety of DAWs and playback systems, allowing for local inter-application audio transport and automation.

FEATURES

Integrates with a Wide Range of DAWs

The FLUX:: AudioPipe technology, available in the SPAT Send and SPAT Return plugins, makes it possible to integrate with a wide range of DAWs, including Ableton Live, Pro Tools, Reaper, and Logic Pro

Flexible Control

Control via tablet, phone, or computer

Extensive List of Object Parameters

SPAT Revolution offers an extensive list of advanced object parameters based upon how humans perceive sound

Easily Adapt to Unique Speaker Arrangements

SPAT Revolution doesn't favor any output format or speaker system. This makes it just as easy to create a Dolby 7.1.4 system mix to adapt to any other unique speaker arrangement

Advanced Reverb Engine

The result of years of research from IRCAM developers, SPAT's reverb engine enables it to create an exceptionally natural acoustic simulation - the most fundamental element of a truly immersive experience

Multi-OS Compatibility

Windows, macOS, Android

VENUE SYNTHESIS

APPLICATIONS SERVED:

Houses of Worship
Hospitality
Tour Sound
Stadiums
Immersive Audio

DESIGN IN NEW DIMENSIONS

Venue Synthesis allows system designers and engineers to accurately predict the acoustical and mechanical performance of JBL sound systems. The streamlined and intuitive user interface expedites the entire design process, allowing system designers to transition from conception to deployment in record time. The new advanced acoustic engine generates high-resolution simulations to accurately match real-life performance, while the sophisticated mechanical engine generates precise system reports and array statistics.

FEATURES

3D Full System Mapping

Precise, full mapping of acoustic coverage on any audience and architectural plane

2D System View

Visualize coverage, impact points, and loudspeaker angles

Special Object Creator

Quickly create common architectural and audience areas

Import Drawing

Import and trace 2D schematics to quickly model venues at scale

Delay Optimizer

Optimize loudspeaker delays for the venue

System Groups

Organize and link loudspeakers based on acoustic properties

Safety Warning Notification System

Safety and reliability alerts in real-time

Mechanics Tools and Array Statistics

Ensures safe rigging and adherence to regulatory requirements

Headroom Warning

Using lab-verified SPL data, if loudspeaker limits are exceeded, a warning provides specific headroom data, so users can reduce levels accordingly

AVX suite

APPLICATIONS SERVED:

Houses of Worship
Hospitality
Tour Sound
Stadiums
Immersive Audio

CREATIVITY AT YOUR FINGERTIPS

AVX Suite™ streamlines the configuration, control, monitoring, and management of BSS Soundweb OMNI systems through three user-friendly applications, AVX Architect™ for system configuration, AVX Control™ for day-to-day system operation, and AVX Manager™ for system management. AVX Suite provides the tools needed to design and manage highly scalable and flexible system solutions.

FEATURES

Unified suite of purpose-built apps

- AVX Architect for system illustration, device configuration, and custom UI creation
- AVX Control for system operation
- AVX Manager device and network setting management

Flexibility

Choice of centralized or distributed DSP topologies

Scalability

Unlimited Soundweb OMNI processors can be added to a single project file

Open-Architecture

Single canvas, multi-device configuration of open-architecture DSP

Connectivity

HARMAN HControl protocol, and private and public routing for Dante

Access custom UIs on any OS

Windows, macOS, Android, iOS, and even AMX Varia touch panels

User-friendly

Modernized Custom UI Builder

JBL PRO CONNECT V2

APPLICATIONS SERVED:

Houses of Worship
Hospitality

CONTROL AT YOUR FINGERTIPS

JBL Pro's universal control application just got even more connected. Explore endless possibilities before you even pair, with fully contained demo mode. New full screen resolution, mix out pre/post-fader support, snapshot language feature, and more elevate the user experience, right at your fingertips. JBL Pro Connect puts control in your hands so you can sound amazing even before you begin your performance.

FEATURES

Streamlined Control

Manage mixer and DSP functions, as well as a variety of pre-loaded presets

Bluetooth 5.0 Functionality

Connect and sync up to 10 JBL Pro Connect-enabled speakers

Personalize Your Workflow

Group speakers for mixing, rename channels for traditional channel strip functionality, and more

Demo Mode

Explore app capabilities and configure and save system settings and presets without being connected to speakers

Full-Screen Mode

Offers a higher degree of resolution for editing and adjusting faders, and more

MIX OUT Pre/Post-Fader Support

Switch between pre/post-faders to match use-case scenarios

Snapshot Language Support

Save snapshots in a variety of select local languages when the keyboard has been loaded to the device

HARMAN'S HOUSE OF WORSHIP INTEGRATED SOLUTIONS BENEFITS BREAKDOWN

ELEVATE THE WORSHIP EXPERIENCE

Our state-of-the-art solutions provide unparalleled clarity and expertly delivered audio, video, and lighting - creating captivating and immersive experiences for worshippers.

FAVORED AMONG WORSHIP LEADERS WORLDWIDE

Our legendary products operate quietly yet profoundly, leaving a distinct impression in the simplest and most sophisticated houses of worship around the world.

SEAMLESS INTEGRATION AND EFFICIENT SYSTEM MANAGEMENT

Our intuitive and powerful control systems empower worship leaders to easily control and coordinate the worship experience with minimal technology distractions

FUTURE-PROOF YOUR WORSHIP EXPERIENCE

Invest in the future of your ministry with HARMAN. Our installations ensure your worship experience remains relevant and continues to inspire congregants for years to come.

HOUSES OF WORSHIP

Uplifting and Enlightening House of Worship Congregations

Every house of worship is a conduit for spiritual connection and enlightenment. At HARMAN, we are committed to elevating your space in whatever way best supports your vision to better connect with your congregation. Our industry-revered audio, video, control, and lighting systems are meticulously crafted to exceed your expectations for state-of-the-art worship experiences. Whether you seek to amplify a clearer message or infuse your space with a high-performance audiovisual and lighting showcase, we want to be your trusted technology partner.

Whether your house of worship is a church, temple, mosque, synagogue, or other sacred space, it has its own voice and story to tell. Our expertise lies in rising above the acoustics and architectural challenges to deliver advanced solutions that beautify and embolden the spiritual experience.

Across continents, our name resonates with quality, innovation, and reliability. Worship leaders across the globe find solace in our legacy. Our passion for innovation continues to push the boundaries of what is possible, continually redefining the worship experience.

At HARMAN, innovation is in our DNA. Our iconic brands such as AKG, AMX, BSS, JBL, Crown, and Martin stand as beacons of quality, design, and unwavering reliability. Our worship solutions are built for lasting impact and changing technology. They ensure your worship space remains impactful and inspiring for years to come. From planning to installation to support, HARMAN is your dedicated partner in supporting your spiritual mission.

- AC18 Loudspeakers
- VTX B28 Subwoofers

SONGDO GANAAN CHURCH, SOUTH KOREA

OPPORTUNITY

The church needed a large-scale audio-visual upgrade. This upgrade was aimed at delivering crystal-clear sound to every seat in the church.

SOLUTION

TechDataPS Co., Ltd. and Saegyero-In-Sound upgraded Songdo Ganaan Church's sound system with JBL Professional loudspeakers. The installation featured 24 VTX A12 line array speakers powered by Crown I-Tech 4x3500HD amplifiers, ensuring even sound distribution. Eight VTX B28 subwoofers delivered deep bass, while JBL AC25 loudspeakers provided front fill. To address acoustic blindspots, 36 JBL AC18 loudspeakers ensured consistent audio across the venue. Amar Subash of HARMAN Professional Solutions praised the project, emphasizing the system's ability to handle a range of musical performances, delighting the church's congregation.

INSTALLATION SPACES

- House of Worship Stages

“Since we upgraded, we have been able to deliver performances for a wide range of music, from orchestral to modern worship songs with rock and EDM elements.”

SEE THE FULL CASE STUDY

MILE HI CHURCH, USA

OPPORTUNITY

Mile Hi Church required a state-of-the-art sound solution to deliver clear, detailed audio for speakers and performers during services and special events.

SOLUTION

Founded in 1959, Mile Hi Church in Colorado is a vibrant spiritual community. Their 1,500-seat sanctuary, built in 2008, hosts weekly services, concerts, and renowned speakers like Deepak Chopra. To address challenges with vocal clarity and aging equipment, Mile Hi upgraded to JBL VTX A-Series loudspeakers, Crown amplifiers, and BSS processors. The system delivers detailed sound with uniform coverage, enhancing the experience for all attendees. Audio Visual Coordinator Nathan Marschall praised the system's clarity and ease of setup, while congregants celebrated the improved audio quality and balance throughout the space.

INSTALLATION SPACES

- House of Worship Stages

“We love the new speaker system. We're getting such wonderful compliments and comments from our congregants. It's just an overall better listening experience.”

DUSHANBE CENTRAL MOSQUE, TAJIKISTAN

OPPORTUNITY

One of the largest mosques in Central Asia, Dushanbe Central Mosque required a massive networked audio system to distribute clear, intelligible sound to up to 120,000 attendees.

SOLUTION

Dushanbe Central Mosque, Tajikistan's largest and one of Central Asia's biggest, can host 120,000 people for large events, with 25,000 inside. Built in a hot climate, the mosque required an advanced, durable sound system. A&T Trade deployed 170 JBL Intellivox column loudspeakers with precise directivity for clear speech intelligibility. The system, powered by AXYS and Crown amplifiers and BSS processors, includes a Soundcraft mixer. The slim, paintable Intellivox speakers blend seamlessly with the mosque's decor. Using a Dante network, the setup ensures exceptional sound quality, meeting the mosque's unique architectural and environmental challenges.

INSTALLATION SPACES

- House of Worship Interiors

“We used HARMAN Professional's top-of-the-line products because they provide exceptional speech intelligibility and background sound reinforcement, even in difficult acoustic conditions.”

SEE THE FULL CASE STUDY

ST. ASAPH CATHEDRAL, WALES

OPPORTUNITY

Recognized as one of the oldest cathedrals in Wales, St. Asaph Cathedral sought to update its aging audio system to enhance sound quality for services, events, and visitors.

SOLUTION

Richard King Systems, in partnership with Sound Technology Ltd, installed a HARMAN Professional audio system at St. Asaph Cathedral, focusing on high-performance sound with minimal visual impact on the historic interior. The system features JBL CBT column loudspeakers, known for delivering clear sound in reverberant spaces while maintaining a discreet appearance. Canon John Liston praised the new system and Richard King's straightforward process. Richard Hughes, of Richard King Systems, highlighted the collaboration with HARMAN and JBL for meeting audio needs while providing excellent value, with support from Sound Technology's Matt Watt and Ryan Locker.

INSTALLATION SPACES

- House of Worship Interiors

“The new sound system is wonderful and we've been supported throughout. We're now confident that when we have people visiting, the sound is just as we need it.”

ONE HARMAN ONE SOLUTION

Unleash Your Vision with HARMAN

HARMAN Professional Solutions offers a world-class ecosystem of audio, video, control, and lighting solutions designed to elevate your projects and installations. With a rich history and a commitment to innovation, we deliver comprehensive solutions, tailored to your specific needs. From concert halls to boardrooms, our products are built to perform at the highest levels, ensuring a second-to-none user experience.

Unleash the Power of Synergy

Our portfolio of iconic brands, including JBL, Martin, AKG, AMX, and BSS, come together to create immersive, interactive, and integrated solutions. This powerful combination delivers unparalleled audio, video, control, and lighting experiences. By seamlessly integrating our solutions, you can design environments that captivate audiences, enhance productivity, and drive business growth. We're not just providing products; we're delivering the foundation for extraordinary experiences.

Experience HARMAN Excellence

At HARMAN, we're dedicated to exceeding your expectations. Our cutting-edge technology, combined with unparalleled performance, reliability, and support, empowers you to create extraordinary experiences. With a focus on innovation and customer satisfaction, we're your trusted partner in bringing visions to life.

EXPERIENCE HARMAN PROFESSIONAL SOLUTIONS

Step into the Future with HARMAN Professional Solutions

HARMAN Professional Solutions elevates your experience with a global network of Experience Centers. These state-of-the-art facilities showcase our next-generation technologies and integrated solutions within immersive environments. At the heart of these Experience Centers lies a commitment to fostering collaboration, integration, and innovation.

Explore the Possibilities

When visiting any of our Experience Centers, we invite you to interact with HARMAN experts and explore our comprehensive range of audio, video, control, and lighting solutions. You'll have the opportunity to experience firsthand how HARMAN's integrated ecosystem transforms projects across corporate spaces, hospitality venues, houses of worship, and live entertainment environments.

Experience Real-World Scenarios

HARMAN Experience Centers don't just tell; they show. Through meticulously designed environments, experience seamless integration of HARMAN's solutions, delivering unparalleled audio, visual, control, and lighting experiences. Whether it's a simulated concert hall or an interactive executive boardroom, our immersive solutions showcase the immense possibilities unlocked by HARMAN technologies.

Innovation Hubs

Beyond showcases, Experience Centers are unifying hubs for collaboration. Our experts work with customers and partners to explore new ideas and develop tailored solutions. This collaborative approach ensures HARMAN offerings remain at the forefront of innovation, continuously evolving to meet and exceed your needs and requirements.

Explore our World

We warmly welcome you to explore our global network of world-class Experience Centers. Schedule a visit, and discover for yourself how HARMAN Professional Solutions can elevate your projects and installations: pro.harman.com/lp/harman-experience-centers.
